## WELCOME MESSAGE

Welcome to the 2021 Shannons Adelaide Rally. The event is a 4-day event packed with spirited driving activities and competition. The event will run a course of near 230 closed road kilometres, being the longest Adelaide Rally course seen since Classic Adelaide 2009. These roads have very low average speeds due to the technical and serpentine nature of the roads and are true "driver's roads".

This year's event has undergone several changes from previous years.

Most notably the event is proud to announce that it has secured South Australian Tourism Commission support for multiple years and it has also obtained multi-year approval from Adelaide Hills Council, both delivering operational benefits including more efficient road closure times as well as the means to deliver dedicated spectator stages, large street parties and peripheral events. Shannons Insurance continues to be a major partner and naming rights holder to the event.

We have moved to a Thursday to Sunday format similar to that used in the historic Classic Adelaide Rally event in an effort to deliver greater spectator experience over the weekend and minimise time away from work for participants and volunteers alike.

Day one remains reserved for the Competition and Challenge cars but now represents the largest number of closed road kilometres of the four days.

We have reversed the running of the field so that Competition runs fastest to slowest on the road on day one and fastest to slowest after the Tours on Day 2,3 and 4.

This moves our top tier competitors forward in the field by over an hour.

For the first time ever, we see prizemoney available for winning teams with a Prize Pool of \$25,000 Outright winners will take \$10,000 and the fastest interstate crew take another \$10,000 in prizemoney. The Adelaide TT category makes its debut with impressive Tourist Trophies for the fastest interstate crews in Classic and Modern categories.

The management team has expanded this year and we have taken on several specialist advisers who can be seen in the organisational committee list within the supplementary regulations.

This year we have brought on board First Care Medical as additional ambulance support and Hilltop Towing as additional recovery support throughout the event as we continuously improve our operations and deliver what we believe to be the most exciting and festive motorsport event in the country that is blessed with a CBD base and runs in such close proximity to the A grade tourism region of the Adelaide Hills.

We highlight the input of the many volunteers that undertake a variety of roles to enable the event to happen at all and thank them in particular.

Have a very safe and enjoyable event.

Kind regards  
Tim Possingham  
Owner/Director- Adelaide Rally

### ARTICLE 13 – RUNNING OF THE RALLY

- 13.1 **Ceremonial Start for Competition vehicles (Competition, Challenge, Category S) only:** The Organisers will locate an assembly area at **Victoria Park**. Ceremonial Start is TBA. It is the crews' responsibility to ensure that their vehicle departs on time
- 13.2 Once the Event has started, all competing vehicles must be driven. This means under its own operational power. This means the use of trailers to transport vehicles is not allowed between special stages unless a breakdown or incident has occurred. In this instance a trailer is permitted outside of the special stage but you will need to advise a CRO if you are either withdrawing or intend to re-join and arrange scrutineering.
- 13.3 The rally start Location and Time will be shown in the Event Programme.
- 13.4 The start order for the rally will be at the Clerk of the Course's discretion.

Leg 1 the Competition will start first with Category S and Challenge following fastest car first.  
The Prima Tour will follow Challenge.

Leg 2 Main Tour crews will start first, followed by the Spirit Tour, Competition, Category S then Challenge with the fastest vehicle starting first in each category

Leg 3 Main Tour crews will start first, followed by the Spirit Tour, Competition, Category S then Challenge with the fastest vehicle starting first in each category

Leg 4 Main Tour crews will start first, followed by the Spirit Tour, Competition, Category S then Challenge with the fastest vehicle starting first in each category.

- 13.5 The Re-Start Order for each subsequent Leg will be posted on the Official Notice Board at 2100hrs on the preceding day. The start order will be based on the performance of previous Leg/s at the Clerk of the Course's discretion.

For Main Tour participants will start at approximately 4 second intervals. Spirit Tour cars will start each stage at 30 second intervals.
- 13.9 **Overtaking- Tours, Competition, Category S & Challenge**
- Tour entrants are forbidden from overtaking unless the vehicle being overtaken has slowed due to suffering a mechanical failure and indicates that overtaking is safe.

For Competition, Challenge and Category S, the signal advising the need to overtake will be the sounding of the vehicle horn and/or the flashing of headlamps and/or RallySafe "Push to Pass" function.

The vehicle being overtaken, must give way. Should a driver indicate to overtake, the driver being overtaken MUST turn on their left side indicator and must allow the overtaking vehicle to pass immediately by slowing and moving to the left side of the roadway and, if necessary, stopping. The failure of the yielding vehicle to put on the left side indicator will not be deemed a reason to prevent overtaking and the overtaking vehicle DOES NOT need to wait for it to be turned on to overtake; it is merely an additional indication to the overtaking vehicle that the vehicle being overtaken has acknowledged that they are aware of their intention to overtake. The overtaking vehicle must only pass on the right side of the overtaken vehicle.

#### Failure to Permit Overtaking – Competition, Challenge and Category S

Should the driver of a vehicle being overtaken hinder the overtaking vehicle at all and the overtaking driver reports such a breach to the organisers, the organisers will view any evidence provided and the Clerk of the Course will impose the following penalty:

- First offence for failure to permit overtaking 1-minute penalty
- Second and each subsequent offence for failure to permit overtaking \$500 and 2-minute penalty

Overtaking complaints must include video evidence and be lodged with a Competitor Relations Officer at event headquarters within 30 minutes of the claimant's actual time of booking in at the end of the leg. If a competitor is found guilty of hindering an overtaking vehicle and penalised as above, the overtaking competitor may be awarded a compassionate time allowance as determined by the Clerk of the Course. The allocated fine must be paid before the start of the next leg. Failure to do so will result in the competitor not being allowed to restart until the fine has been paid.

- 13.10 **Headlights** must be illuminated on all Special Stages.

- 13.11 **Oil Spills** on special stage need to be advised at time control at the stop point of the special stage with an indication of location where possible. If there is an oil spill in Parc Fermé please advise an official as soon as possible.

13.11.1 **Oil Absorbent Material**

Competitors in Challenge, Competition and Category S are required to carry in the rally car a 1kg bag of environmentally friendly, 100% organic, non-leaching, non-toxic, biodegradable oil absorbent material. An oil spill kit is not required for the Prima or Main Tours but is highly recommended.

13.11.2 **Damaged Motor Resulting in an Oil Leak**

If a competitor damages a motor resulting in an oil leak, they must immediately pull off the driving line and stop as soon as safe to do so. Caution triangles are then to be shown 50m before the oil spillage. They are then to spread the oil absorbent material where the bulk of the leaked oil has been deposited. Crews are to do this in a safe manner, with one member warning the other of oncoming cars and showing the OK board.

## Article 14 – Retirement and Re-joining Rally

- 14.1 Crews who withdraw from the rally must email [ivar@rallysa.com.au](mailto:ivar@rallysa.com.au) with a – “Notification of Withdrawal from Rally, written advice” – or submit it to a Competitor Relations Officer. They are to complete the written advice indicating if they are withdrawing from the Event altogether or if they will be re-joining.

Any car unable to continue to follow the route for any reason will be able to re-join the Event at a subsequent Service Out or Regroup Out Control provide the following conditions are met:

- (a) the crew advise a CRO of their intention to re-join the event;
- (b) the vehicle is inspected by a Scrutineer who subsequently authorises the vehicle to re-join, and
- (c) the vehicle re-joins prior to the passage of the Sweep Vehicle.

Where possible crews will restart in the position on the road in which they were placed at the start of the stage which they failed to finish.

For any stage missed, a crew may be given a derived time equal to the slowest time on the stage plus 3 minutes.

Crews may re-join at the final control providing that the vehicle is under its own power and that normal control procedures are followed.

Crews missing one or more special stages or who fail to complete one or more road sections will be classified behind those crews who have completed the entire course and then in order of the number of stages completed and the lowest total times within each group of crews completing the same number of stages.

To be classified, the re-joining crew must have completed at least 50% of the competitive distance of the relevant competition.

- 14.2 Special Stages will be closed when the Fast Sweep (Car 999) enters the stage. Any crew who arrives at a Special Stage Time Control within their Late Time Limit but after the stage has ‘closed’ are to book into the Time Control if possible and then to drive the stage abiding by all applicable road regulations or, if this is not practicable, they must go directly to the next possible Time Control. Upon application, the crew may be given a derived time plus 30 seconds in the first instance. If the crew remain behind the 999 car the crew will be given a derived time plus two minutes per stage missed, provided the crew remain within their late time limit. Crews are to enter their own start and finish times on the Time Card.

Multiple instances may be referred to the Stewards for consideration of other penalties.

- 14.3 Any crew who stops on a Special Stage and is passed by the sweep car is deemed to have withdrawn from that stage. If they re-join the stage they are to drive the stage abiding by all applicable road regulations.

If their re-join is deemed to be within their Late Time Limit they may apply for an derived time equal to the slowest time on the stage plus 2 minutes otherwise it will be treated as a missed stage.

- 14.4 Any competitor who withdraws from a Leg and fails to notify a Competitor Relations Officer, Sweep Vehicle or a Control Official by **1800hrs** of their intent to re-join will not be included in the Start Order for the following Leg.

## ARTICLE 15 – CHICANES, RESTRICTED SPEED POINTS (RSP's), RESTRICTED SPEED ZONES (RSZ), AND COURSE MARKERS

- 15.1 During the running of the event, cutting of the course, including corners, is prohibited and any instances will be reported to the Stewards and a penalty may be applied which may go as far as exclusion from the results. Refer NCR's.

Cutting is defined as having any wheels off the formed road during any special stage

To prevent ‘cutting’ of corners by competitors and gravel subsequently being thrown across the road surface, Course Markers will comprise of either large **Orange Bollards** or **‘Witches Hats’**, which may be placed on the gravel edge of the tarmac, or any road marker (i.e. white post) placed by a Statutory Authority or the Organisers. Drivers should drive

accordingly i.e. not plan to cut any corner. In addition to the penalties in SR Article 15.1 competitors will be penalised 5 seconds for each offence in which they are deemed to have cut a corner.

Competitors are also reminded that under NRSR SSR the penalty for deviating from the course may be up to disqualification, see below.

*2.1 (a) NRSR SSR The Route Instructions describe the course that must be followed. Any deviation from this course or travelling in the opposite direction to that described, that is reported by an official will be transmitted to the Stewards who may impose a penalty up to Disqualification if they decide that there is no case for force majeure.*

## 15.2 RSP's (Restricted speed points) also known as Virtual Chicanes.

RSP's will be deployed and the rules below must be complied with by all Crews in the Competition, Challenge, Category S and Spirit Tour categories. These are points where you will be required to slow down momentarily below 40km/h in a 100 or 200m virtual box starting from the point marked on the course with a designated 'RSP 40' board.

The following rules will apply:

- The RallySafe system will be used to determine the speed of the vehicle.
- At the RSP Point there will be a Board with RSP 40 on the left-hand side of the road. Between this point and the RSP End Board you will need to decrease your speed momentarily to 40kph or below.
- The RallySafe System will go green when you have reached the speed and may accelerate back to normal pace immediately after seeing the Green indicator on the Rallysafe device.
- Overtaking is not permissible within the Restricted Speed Point. Penalty 30 seconds.
- Vehicles must not impede another Driver.

RallySafe as a judge of fact, in conjunction with the Chief Scorer will enforce the following penalties for breaches by Competition and Challenge Crews within Restricted Speed Points:

- Reported lowest displayed speed exceeding 40km/h but not exceeding 45km/h –a penalty of 5 seconds.
- Reported lowest displayed speed exceeding 45km/h but not exceeding 60km/h –a penalty of 15 seconds.
- Reported lowest displayed speed exceeding 60km/h a penalty of 60 seconds.

Crews in Category S or in Sprit Tour who fail to comply with RSPs may be referred to the Stewards for the imposition of a penalty with a recommendation for exclusion from the Event for recurring offenders.

Chicane observers will be deemed to be judges of fact over all activities relating to their location.

The Stewards shall determine such other penalties as may be deemed fit, in addition to the minimum mandatory penalties outlined above.

### 15.3 RSZs (Restricted speed zones)

RSZ's will be deployed and the rules below must be complied with by all Crews in the Competition, Challenge, Category S and Spirit Tour categories. These are points where you will be required to slow down below 80km/h throughout a zone of which the distance is shown in the road book. The 80KPH limit applies from the point marked on the course with a designated 'RSZ 80' board to the point at which the Rallysafe device indicates GREEN.

The following rules will apply:

- The RallySafe system will be used to determine the speed of the vehicle.
- 200m Prior to the RSZ Zone there will be a Board with RSZ AHEAD on the left-hand side of the road. Between this point and the next 200m you will need to start to decrease your speed to **achieve 80KPH when entering the RSZ**.
- The RallySafe System will go RED when in the RSZ and here you must stay below 80KPH until the Rallysafe device goes green at which time you may accelerate back to normal pace immediately after seeing the Green indicator on the Rallysafe device.
- Overtaking is not permissible within the 200m approach to a Restricted Speed Zones. Penalty 30 seconds.
- Vehicles must not impede another Driver.

RallySafe as a judge of fact, in conjunction with the Chief Scorer will enforce the following penalties for breaches by Competition and Challenge crews within Restricted Speed Zones:

- Reported lowest displayed speed exceeding 80km/h but not exceeding 85km/h –a penalty of 5 seconds.
- Reported lowest displayed speed exceeding 85km/h but not exceeding 100km/h –a penalty of 15 seconds.
- Reported lowest displayed speed exceeding 100km/h a penalty of 30 seconds.

Crews in Category S or in Spirit Tour who fail to comply with RSZs may be referred to the Stewards for the imposition of a penalty with a recommendation for exclusion from the Event for recurring offenders.

Chicane observers will be deemed to be judges of fact over all activities relating to their location.

The Stewards shall determine such other penalties as may be deemed fit, in addition to the minimum mandatory penalties outlined above.

## RESTRICTED SPEED ZONE (RSZ)

**ARTICLE 16 – CONTROLS AND PARC FERMÉ**

- 16.1 **Entry into Time Control and Start Control:** The Official Rally Time will be displayed on the Competitors RallySafe Unit. Early or late arrival at a Time Control will not involve a time penalty. However, late time will accrue at the rate of 1 second for each second of time taken more than the time allowed. Late time cannot be regained by early arrival at any time control.
- Crews who arrive early at a Time Control may be held by the Control Official to start in the order of the published Start List for that Leg.**
- Crews will be “booked in” when they drive past the Yellow Clock Board into the Control Area. Co-Drivers are NOT to walk into the Control area. Both Driver and Co-Driver must be in the car with helmets on, driving suits done up, belts on and ready to rally.
- On moving to the Start Control the Timekeeper will allocate you a Start Time and your attention should then be directed to the RallySafe Clock.
- 16.2 **Special Stage Starts:** The RallySafe Unit will give crews a countdown to their start time for that stage. The RallySafe Unit will record if there was a jump start.
- Should the electronic starting system fail, the start will be given manually by the officials.
- 16.3 **Service Crews** may not park within 200m of a Special Stage Control and may not walk into the boundaries of the Control.

**RUNNING OF THE RALLY – PRIMA TOUR, MAIN TOUR & SPIRIT TOURS****16.4 OVERVIEW****Prima Tour**

A restricted field of up to 70 vehicles will be invited to participate in the Prima Tour as part of leg 2 of the Shannons Adelaide Rally. The Prima Tour will be an event within an event with its own identity and branding.

These cars and crews will run over up to 6 of the same Special Stages as the rest of the rally field.

The cars will run over the closed road Special Stages as a non-competitive Parade at a controlled speed of 80kph or Signposted Limits (whichever is higher) with official cars located front and rear (Leader and Follower) of the Prima Tour vehicles. The Prima Tour event will finish when participants arrive at the Bridgewater Mill. The lunch event following is not deemed to be part of the Motoring event.

Crews in the Prima Tour are not permitted to use pacenotes and are required to follow the instructions in the Road Book provided by the Organiser. Crews in the Prima Tour discovered to be using pacenotes may be excluded from the Event.

**Main Tour**

A restricted field of up to 225 vehicles will be invited to participate in the Main Tour over Legs 2, 3 and 4 of the Shannons Adelaide Rally. The Main Tour will incorporate all manufacturer tour groups such as BMW, Audi, Ferrari etc.

The Main Tour is a non-competitive Parade.

These cars and crews will run over all of Legs 2, 3 and 4 Special Stages as the rest of the rally field.

Main Tour cars will be broken up into packets of vehicles with a Tour Leader and Follower controlling the packets speed and location in the field.

The Main tour will traverse closed road stages at a speed of 80kph or signposted limits (whichever is higher).

Crews in the MainTour are not permitted to use pacenotes and are required to follow the instructions in the Road Book provided by the Organiser. Crews in the MainTour discovered to be using pacenotes may be excluded from the Event.

**Spirit Tour**

Classic and Modern Vehicles will be invited to participate in the Spirit Tour over Legs 2, 3 and 4 of the Shannons Adelaide Rally. The Spirit Tour is non-competitive but has increased levels of safety apparel to match the elevated speeds of up to 120kph on closed roads.

Convertible vehicles without rollover protection and a hard roof fitted are not permitted. Targa and Spyder type vehicles are permitted provided they feature factory fitted or integrated rollover protection and vehicles manufactured prior to 1 January 1986 must be fitted with at least a half cage.

These cars and crews will run over all of Legs 2, 3 and 4 Special Stages as the rest of the rally field.

Spirit Tour cars are limited to 120kph on closed road activities, speeds will be monitored by Rallysafe. Participants exceeding 120kph, found to be engaging in exhibitionist driving or measuring or comparing times or otherwise driving in a manner not consistent with the non-competitive nature of the category will be referred to the Clerk of Course for any penalty. This may be up to exclusion from the event and/or a financial penalty.

#### 16.4.1 Road Books/Event Map

Road books/Event Map which provide comprehensive details of the course will be issued to crews with their rally box following close of entries. Rally boxes will be sent to the crews nominated address. Someone needs to be present to sign for the Rally Box.

#### 16.4.2 Course

With the exception of vehicles in the Spirit Tour which shall be fitted with Rallysafe and start each Special Stage at 30 second intervals, Crews are required to follow the course in packets of up to 15 vehicles, led by an organiser approved tour leader.

#### 16.4.3 Start Order

A list of packets and packet order will be placed on the event website [www.adelaiderrally.com.au](http://www.adelaiderrally.com.au). Tour groups and group orders may be adjusted after each Leg. The Tour Coordinator may change the order of a group at any time. The Start Location for the Tour groups will be from Parc Fermé. Crews are required to report to the Start Location, 20 minutes prior to the Departure Time. Late arrival may mean missing the Leg.

#### 16.4.4 Stages

##### At start of stages:

Participants are to queue behind the Tour Group Leader vehicle on the side of the road (**leaving an Emergency Lane open at all times**) as directed. The group Leader vehicle will give two minutes warning before departure and participants are then required to be in their vehicles, with seat belts done up. If a vehicle is not ready to start in its proper order, it may be directed to pull to the side of the road and miss touring through the stage. Failure to move forward in convoy when instructed to do so will be reported to the Clerk of the Course, which may impose a penalty, including exclusion from the Tour.

##### Through Stages:

Participants are to follow the Tour Group Leader car through the stage in convoy and normal safe driving practices are to be adopted always. Speed will be limited to that set by the Tour Leader as per irrespective of the road being closed to public traffic. **Participants are not permitted to 'drop back' and then accelerate at high speed. Tour cars are to maintain a 4 second gap between the car in front and behind.** Observers, who will be Judges of Fact, will be located around the course to make judgments on the following:

- Participants not maintaining formation
- Sliding or drifting
- Locked wheels while braking
- Driving off the edges of the sealed surface
- Body damage
- Travelling along a stage in the wrong direction
- Excessive speed
- Failing to comply with RSPs and RSZs

Violations will be reported to the Clerk of the Course and the following action taken:

- First offence: participant required to appear before the Clerk of the Course, who will consider the nature of the infringement and apply a penalty as deemed appropriate
- Second offence: denied permission to continue in the Tour
- Travelling along a stage in the wrong direction will lead to exclusion from the event

#### 16.4.5 Stage Stop

At the finish of stages, participants must slow down and be prepared to stop, and then continue to follow the Tour Leader vehicle into the next Liaison Stage. No arrival time is recorded.

#### 16.4.6 Overtaking

Overtaking in any Tour Category is NOT Allowed unless the vehicle ahead is slowed or stopped due to a mechanical failure. If your vehicle is suffering with a mechanical issue impacting your ability to drive at touring or road speed please advise the vehicle behind by using the indicators in your vehicle. Should a driver indicate to overtake, the driver being overtaken MUST turn on their left side indicator and must allow the overtaking vehicle to pass immediately by slowing and moving to the left side of the roadway and, if necessary, stopping.

Participants are encouraged to liaise with the Tour Leader regarding running order within their packet to ensure that those Crews who wish to traverse the course at a slower speed are positioned at the rear of the packet.

## SCORING, PENALTIES AND RESULTS

### ARTICLE 17 – SCORING PENALTIES

17.1 Results will be determined by the application of time taken on the special stages plus any penalties, if any, for each competing crew. Total time for all crews will be expressed in hours, minutes and seconds.

#### 17.1.1 RallySafe Timing

The RallySafe Timing System will be used. <http://rallysafe.com.au/about/>

#### 17.1.2 Special Stage 1 (except tour)

The Stage Time for SS1 will NOT be included in the Results or published to allow crews to acclimatise to their car and traverse the various types of speed restriction zones and points used within the event.

#### 17.2 Time Penalties (except tour)

As per NSRC SSR except as provided for in Article 16.1

##### 17.2.1 Late Time

Late time is time in excess of the defined touring time. Competition and challenge crews have Late time Limit set for each leg of the day (please see schedule below) in which to complete the competition. Once a competition or challenge crew has exceeded the Late time for each leg, they have deemed to have missed time controls (even if they have passed through them) and would be penalised accordingly. "Time Allowed" is the time listed in the road book. If the touring/ liaison leg is completed within this time there is no penalty, and any time in excess of this would count towards the allocated late time.

##### 17.2.2 Late Time Limits

The Late time limit below is per Leg of the competition categories:

- a) **Competition** - 30 Minutes
- b) **Challenge** – 30 Minutes
- c) **Touring** – Late time not applicable

#### 17.3 Missed Stages (except tour)

For any stage missed, except as provided for in Article 14.2 and 14.3, a crew will be allocated a time equal to the slowest time on that stage by a vehicle of the same category plus 3 Minutes

#### 17.4 Speeding during the Rally (Liaison Sections)

Crews are reminded that under the NRSR SSR the following penalties will apply for speeding during the rally.

(1) For offences up to 30km/h above the relevant liaison speed limit (NRCSR EG) –

- First offence: \$200 fine.
- Second offence: \$500 plus five minutes penalty.
- Third offence: exclusion.

(2) For offences greater than 30km/h above the relevant liaison speed limit (NRSR EG) -

- First offence: \$200 fine plus five minutes penalty.
- Second offence: exclusion.

Detection of speed limits may be through notification from the Police, Rally Radar or RallySafe Reports.

The number of offences means the number detected during the event, irrespective of speed

#### 17.5 Maximum Speed Limits

For reasons of safety, a maximum speed of Posted Speed limit for Prima Tour, **120km/h** applies for **Spirit Tour** and **130km/h** applies to **Challenge entrants when on closed road stages**.  
**180km/h** applies for all **Category S** entrants when on closed road stages.

All cars will be fitted with a RallySafe Tracking System. The RallySafe Tracking System actively monitors the speed of the vehicle and displays an alarm if limits have been exceeded. All data obtained from the RallySafe Tracking System will be used to monitor maximum speeds.

Whilst the hire of the RallySafe Tracking System Unit is included in the Entry Fee, each vehicle will require a power cable, aerial and mounting kit to be installed prior to the event. These items can be purchased directly on the RallySafe website: [www.rallysafe.com.au](http://www.rallysafe.com.au) The power cable must be fitted to a permanent power source. The installation of this device will be checked at scrutiny. Any misuse of the equipment will result in the competitor being reported to the Stewards of the Meeting who may impose penalties that may go as far as exclusion.

Those Crews in the Main Tour who are selected by the Organiser to run a RallySafe unit in their vehicle will be provided with a temporary mounting system. They must cooperate with RallySafe personnel in the fitment of the unit and ancillaries.

**17.5.1 Maximum Speed Limit Penalties – (Challenge)**

Participants exceeding 130kph will be referred to the Clerk of Course with a discretionary penalty to be enforced up to exclusion from the event.

Generally: -

Up to 10 kph above the speed limit – 4 second penalty

: over 10 kph above the speed limit - 15 second penalty

: over 25kph above the speed limit – 30 second penalty

**Exceed speed limit by over 35kph on any one occasion: Disqualification.**

None of the above shall preclude the Organisers placing a charge before the Stewards of the Meeting if the circumstances warrant this action.

**17.5.2 Maximum Speed Limit Penalties – (Spirit Tour)**

Speed will be restricted to 120kmh (Spirit)

1<sup>st</sup> Offence: Crews reported exceeding the category limits stated above for more than 10 seconds OR 15kph over the category limit momentarily will receive a formal verbal warning to the crew. Repeated offenders exceeding their category limit for more than 10 seconds or exceeding the category limit by 15kph may be excluded from stages or the event at the discretion of the Clerk of Course.

2nd Offence: up to 15 kph above the speed limit - \$100

: over 15 kph above the speed limit - \$300

3rd Offence or exceed speed limit by over 25kph on any one occasion: Exclusion.

None of the above shall preclude the Organisers placing a charge before the Stewards if the circumstances warrant this action.

NOTE: fines must be paid prior to the commencement of competition on the day following the issue of the Fine Notice and, in default, the entrant will not be permitted to re-start.

**17.6 Allocated Time (Except Tour)**

Further to SR Articles 14.2, 14.3 and 17.3, crews will be allocated a time if they are required to Stop and render assistance to a competitor.

Crews are advised that if they are required to stop to assist at an accident, a derived stage time will be calculated and applied in response to losing time for having to stop. Such claims must be made to a CRO no later than one hour after booking in to the end of Leg control. It is the crew's responsibility to provide full details of the accident (time arrived, time departed, car numbers of vehicles involved, other vehicles stopped at the scene).

Derived times will be awarded by the Clerk of the Course to a crew which has been prevented by the event organisers and/or an incident as outlined below in point i) from contesting or completing a Special Stage under its own motive power.

i) In the instance of a vehicle having to stop at an incident or being required to stop in a special stage by an official; a derived time will be allocated based on the crew's average finishing position within the Overall Competition field on the previous three stages or as otherwise determined by the Clerk of the Course.

ii) In the instance of a vehicle that has had to slow or stop on consecutive stages for any of the reasons noted in point i, the last three completed stages without stopping at an incident will be used for the purposes of calculating the derived time on all subsequent stages where the vehicle stopped.

Crews will not be allocated a time if they are slowed or slightly delayed by another competitor.

**17.7 Parc Fermé (except Tour)**

Provisions of NRSR SSR apply and will be enforced.

**ARTICLE 18 – RESULTS (EXCEPT TOUR CATEGORIES AND CATEGORY S)**

- 18.1 Progressive Unofficial Results will be available Online during the running of the Event.
- 18.2 Unofficial Results at the end of each Leg will be posted on the Online Official Notice Board
- 18.3 Provisional Results will be published at the end of the Event on the Online Official Notice Board as per the Event Programme.
- 18.4 The Provisional Results will become Final **30 minutes** after posting subject to no Protests.

**ARTICLE 19 – INSURANCE**

Although Motorsport Australia Licence holders are covered by Motorsport Australia personal accident insurance, all crew members are encouraged to have their own personal health insurance and be a current member of an appropriate ambulance service.

The Motorsport Australia certificate of insurance under the heading "Compensation" sub-heading "Non-Medicare Medical Expenses" reads: "Excludes services for which the insured is eligible to receive Medicare benefits. No benefit is payable in respect of the Medicare gap between the payment by Medicare and the charge incurred".

**Crews involved in accidents resulting in property damage (including fences) are advised that they will be required to pay up to the first \$10,000 of any claim to rectify such property damage. Crews agree to this excess by entering the event. Certain public, property, professional indemnity and personal accident insurance is provided by MA in relation to the Event.**

Crews also agree to pay for any damage they inflict on fences and other structures upon written demand from the organisers. Failure to pay will be reported to the Stewards and a penalty may be applied – up to exclusion from this and future events.

**ARTICLE 20 – EMERGENCY PROCEDURES/RALLYSAFE**

Crews should refer to the page in the front of the Road Book that details the action that must be taken in the event of an accident or stopped vehicle on a Special Stage. Failure to adhere to these requirements will be reported to the Stewards of the Meeting for consideration of exclusion or other penalty.

In the instance where a vehicle has stopped on a competitive section, a requirement of the competing crew is to prominently display 2 reflective triangles so that the following competing Crews receive adequate warning of any danger ahead.

Accident advisory signs, SOS (Red) or OK (Green) must be displayed to all subsequent vehicles. The SOS and OK Board will be supplied by the Organisers.

**In the event of an incident** the crew involved MUST follow the incident protocol ensuring their reflective triangles are out and visible to oncoming crews as well as the SOS (Red) or OK (green) boards in a visible spot. It is also important that if a vehicle stops in a special stage for any reason the co-driver is required to select the relevant option on the RallySafe ensuring they are advising OK or SOS if required via the unit.

Crews should refer to RallySafe Training Video at [www.rallysafe.com.au/2013/02/competitors](http://www.rallysafe.com.au/2013/02/competitors).

Any Crew which has the red "SOS" sign displayed to them or sees a car which is stopped within a special stage but is not displaying the green "OK" sign or red "SOS" sign shall immediately and without exception stop to render assistance if necessary.

If a Crew member requires assistance but is unable to display an SOS sign, they are to stand in a safe position and signal to a following vehicle using a crossed arms gesture.

All following cars shall also stop. The second car at the scene shall proceed to inform the next radio point. Subsequent cars shall leave a clear route for emergency vehicles.

Any Crew which is able to but fails to comply with this rule will be reported to the stewards who may impose penalties.

A derived time can be provided to those in competition categories as per article 17.6.

**ARTICLE 21 – ALCOHOL, DRUGS AND OTHER SUBSTANCES**

The holder of a Motorsport Australia Licence (or a Licence issued by another ASN) may be tested for the presence of any drug or other banned substance and subject to a penalty for a breach of the Australian National Anti-Doping Policy and/or the Motorsport Australia Illicit Drugs in Sport (Safety Testing) Policy at [www.motorsport.org.au](http://www.motorsport.org.au).

Consumption of alcohol in the paddock, pits or any other Reserved Area is prohibited until all Competition is concluded each day. The holder of a Motorsport Australia Licence (or a Licence issued by another ASN) may be tested for the presence of alcohol by a Motorsport Australia Accredited Testing Official (CATO) in accordance with the Motorsport Australia Alcohol Policy at [www.motorsport.org.au](http://www.motorsport.org.au).

**ARTICLE 22 – COPYRIGHT****22.1 Video and Film**

It is a condition of entry that vision taken by competitors from competing vehicles using in-car video or moving film cameras may only be used for private purposes.

Any commercial arrangements made by the Entrants and crew members for the sale of film, video footage or photographs of the Event, or the viewing of such in a public place, must be approved in writing by the Organisers. Entrants and crew members are advised to contact the Organisers prior to making commitments for any such commercial arrangement. Failure to observe this regulation may lead to legal action by the Organisers for a breach of copyright

Further to this, any such vision shall be made available to the event Organisers, on request at no charge, who shall be able to use such video, film and moving images for any purpose whatsoever without any payment or encumbrance. The competitor also notes that it is a mandatory requirement to accept the fitting of an in-car dashboard-mounted event sponsor decal for the duration of the Event.

**22.2 On-board Camera**

The organisers reserve the right to fit an in-car camera to any competitor vehicles at their sole discretion. In the event that a camera is fitted by the Organisers or the competitor, the competitor also notes that it is a mandatory requirement to accept the fitting of an in-car dashboard mounted-event sponsor decal for the duration of the camera installation.

**22.3 Advertising and Promotion**

Through entering the Event, all competitors and crew members agree to the Organiser using their names, personal photographs and photographs of their vehicles in any promotional material prepared and issued by the Organiser.

1. The Organisers reserve the right to:
  - i) combine classes of similar Technical Regulations and Capacity.
  - ii) add to the awards up to the start of the Event.
2. To be eligible for the Team Awards competitors must nominate a team of three vehicles by emailing [tim@adelaiderally.com.au](mailto:tim@adelaiderally.com.au). Vehicles in each team must be from either Modern or Classic Competition and may be a combination of both. Latest time for Nomination of Teams is Wednesday 24<sup>th</sup> November at 12 mid day via email to [tim@adelaiderally.com.au](mailto:tim@adelaiderally.com.au)

The winning teams for each Category will be determined by adding together the total time of all three crews including any penalty time of each crew.

**Heritage Trophy** - Results will be determined by taking actual stage times for each vehicle and applying a time penalty to each stage time.

The Penalty time is determined by firstly determining a penalty factor for each competing vehicle, then adding an extra capacity penalty and then multiplying it by the number of Kms per stage.

The Penalty Factor is determined by dividing the calculated engine capacity measured in cc's in the competing vehicle by the amount in Kilograms of the STANDARD unmodified version of the vehicle type, model and variant. Then if the vehicle has a capacity exceeding 2000cc an additional figure is added to the penalty factor being the number of CC/s divided by 1500.

Noting that the multiplication factor for rotary and turbocharged engines applies (swept volume x1.7 for turbo/supercharged engines and x 1.8 for rotary engines)

For example a Ford XY GT Falcon would have a Penalty Factor of  $5763 / 1524 = 3.78$  plus a capacity penalty of 3.84 bringing this to an overall penalty factor of  $3.78 + 3.84 = 7.62$

A Hillman Imp would have a Penalty Factor of  $998 / 725 = 1.37$  and does not have an additional capacity penalty.

The Penalty factor is multiplied by the number of kilometres in each stage to determine the penalty time to be added to the stage time.

Using the examples above when applied to a 5.2km stage the Falcon would have a 39.6 second penalty applied and the Hillman Imp a 7.12 penalty applied thus delivering an advantage to the Hillman Imp

**APPENDIX II - RALLYSAFE**

With the integration of the RallySafe system into Australian Tarmac rallying, it is very important that all competitors comply with some very simple conditions and instructions, these same conditions and instructions are in use in many varied overseas and national events and allow the system to work efficiently and provide the best protection and ease of use for the competitors and event organisers.

Teams must make provision in their competition vehicle for the RallySafe tracking system prior to every event. Installation instructions and specifications are available on <https://rallysafe.com.au/competitors-tm/> including a competitor Training Video showing all aspects of the system can be found here.

RallySafe Installation Kits (incl antenna, rollcage or diamond mount & power wiring loom) MUST be purchased from RallySafe, with two weeks lead time for postage and handling, directly from the RallySafe online store – <http://rallysafe.com.au/shop/> Options for different installation types or cable lengths are available.

Correct installation of the fitting kit including wiring polarity and permanent power connection will be checked at Parc Ferme on Wednesday 23<sup>rd</sup> November by Rallysafe Staff.. Any incorrectly installed kits must be rectified prior to the event starting.

Please Note: It is mandatory that the RallySafe unit be wired directly to a constant 12V feed, either the battery or the battery side of the isolator switch as per the RallySafe fitting instructions; connection to an accessories feed or cigarette lighter is not acceptable. It is up to the competitor to fuse this supply with a 5 amp fuse if they choose. The unit has its own internal circuit protection.

The RallySafe units will be available for collection from the RallySafe table at Crew Briefing Session. RallySafe unit user guide/installation instructions will be provided with the unit handout.

RallySafe has substantial benefits for both competitors and organisers including:

- Real time tracking via GPS / Satellite transmission.
- In-car hazard notifications including 'SOS' capability.
- Ability to view progress of any car via internet and Google Maps.
- 'Push to Pass' capability.

Should a competitor experience a problem with their RallySafe unit during the event, they should notify an event official at the next control of the problem, and ensure they speak to a RallySafe representative at the next available service break to have any issues rectified.

Any attempt to tamper with the unit will result in a message transmitted to race control as well as logged internally to the unit; and will be dealt with appropriately by event officials.

Should a competitor retire from the event, they must return the tracking unit to the RallySafe team (only return to a RallySafe representative or CRO) in the Service Park or as soon as practical.

**It is the competitors' responsibility to return the RallySafe unit.** Failure to do so will result in the competitor being liable for the cost of the unit. If due to medical or situational reasons this is not possible, a CRO must be notified prior to 8.00pm on the night of event completion so an alternative can be arranged.

Please Note: RallySafe offer a damage waiver fee which covers the unit for fire and/or damage for \$15+GST per event, or an annual fee for multiple events of \$50+GST. The loss or theft of unit will not be covered and the damaged unit must be presented to avoid a cost. The damage waiver fee must be purchased on line at <http://rallysafe.com.au/shop/damage-waiver> prior to the nominated event/events.

For information on the RallySafe System can be seen in these videos:
